Tour this fully built-out operational hub with the infrastructure many businesses spend years trying to piece together. Divisible from $\pm 10,000$ -46,000 ft.² of air-conditioned space, a gated and fenced yard, and 18' clear warehouse with docks and drive-ins, you can run operations without compromise. The power (800A/208V 3-phase), compressed air throughout, floor drains, and lab-ready buildout make this ideal for contractors, light manufacturing, or specialized laboratory users. The City of Euclid granted light-industrial use inside the building. Add in fully furnished office, kitchen, showers, and even training or conference areas. If you're looking to consolidate and scale, this building checks every box and then some.
